Upper Tana Natural Resources Management Project is an eight year project (2012-2020) funded by Government of Kenya, International Fund for Agricultural Development (IFAD), Spanish Trust Fund and the Local community. The goal of the project is to “contribute to reduction of rural poverty in the Upper Tana river catchment”. The project lead agency is the Ministry of Water and Irrigation, State Department of Water.

The project is being implemented in the Upper Tana Catchment along 24 river basins and the tributaries of the four (4) river basins formerly under Mt Kenya Pilot Project for Natural Resources Management that drain into the Tana River as follows:
